SPECIAL NOTICE TO OUR CUSTOMERS

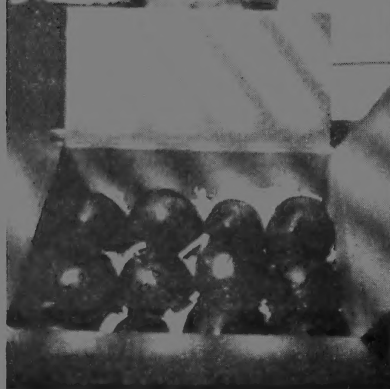

As this is an exceptionally forward season the fruit is ready to ship and may not last through Christmas. Express deliveries are on schedule, but both labor and express costs have risen so high we have been obliged to raise our price to ~~\$1.75~~ ^{1.50} for a box of 6 lbs.
~~\$2.75~~ ^{2.75} for a box of 12 lbs.

We hope to be favored with an early order.

PERSIMMONS have an alkaline reaction although in food value they rank highest of any fruit grown in the temperate zone. For this reason many prefer to serve the smaller sized fruit as a portion. As our fruit weighs all the way from six or seven ounces to a pound and more for individual pieces we can ship 6 pounds of any desired size if you will state your preference—all large (about nine to a box)—all small, or assorted large and small. Regardless of size, the fruit will all be of the finest quality.

Owing to labor conditions boxes will be packed uniformly.

12 lbs. for \$2.~~50~~ 75
